An Unfailing Remedy.
DON'T FAIL TO TRY IT.
The children like it and they tell
It cures their Colds and makes them well,
And mothers seek the store to try it,
With hundreds who desire to buy it.
The disease with which our country is afflicted, which sweeps off annually so many victims, is that fell destroyer of the human race,

CONSUMPTION.
It is estimated that nearly 175,000 die annually with this terrible disease. Consumption in its confirmed and incipient stages, Coughs, Asthma, and affections of the Throat, Chest, and Lungs, Croup, &c., form by far the most fatal class of disease known in our land.
Yet even those may be effectually cured by means of the source, yet wonderful remedy that nature has furnished.
We have carefully combined the medical properties of these natural healing extracts of
BARK, ROOTS, and HERBS,

Issue Only $18,500 per Mile.
1st MORTGAGE BONDS.
THE ROAD NOW EARNING NET, NEARLY DOUBLE ITS ENTIRE INTEREST OBLIGATIONS.
THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS:
The Stockholders have built a first class road and equipped it in a first class manner, *mainly with their own money.*
They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum, and are paying large and regular dividends.
They have built the shortest road to the celebrated Block Coal Mines, whose products have large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses.
The road is already earning as large an excess of its interest liability that its Bonds are safe beyond contingency.
The amount of the mortgage is very moderate, being only about $18,500 per mile.
While Railroad Bonds may be plenty, those upon profitable lines, and for so small an amount, are seldom in the market.
Over $1,200,000 of these Bonds have been sold in a few weeks to Trust Companies, Savings Banks, trustees of estates, and the most careful private investors, and but a small amount remains, for which early application should be made.
That as only a small amount remains unsold, parties who want them should make immediate application.
The Bonds are for $1,000 each, have forty years to run, and bear interest at the rate of 7 per cent. per annum, payable on the first of April and October, both principal and interest being payable in gold in New York.
Price .90 and Accrued Interest.
We do not hesitate to recommend these Bonds as unusually safe. They are attended with none of the uncertainties of projected enterprises, and the prompt payment of the interest, and the final payment of the principal, are as certain as any future financial event can well be.

GREELEY'S BARGAIN.

HOW HE SOLD OUT—PENSIONS PROMISED TO REBELS—SEYMOUR, FENTON AND WALDO HUTCHINS ARRANGING THE TRADE.

The Binghamton, (N. Y.) Republican in response to the demand for the facts in relation to the bargain between Greeley and the democrats which resulted in his nomination for President, publishes a part of the evidence. It seems that Mr. Lewis Carmichael of Unadilla, Otsego county, N. Y., was the first to advocate the movement. Carmichael is a farmer, probably between fifty and fifty years of age, who owns and resides upon a tract of two hundred and forty acres of improved land two miles west of the village of Unadilla in Otsego county. For twenty years he has been a politician of influence and sagacity, and he was consulted in times of important political movements by Dickinson and other eminent men. He has often attended State conventions—sometimes as a delegate; and in 1860 he attended the Charleston and Baltimore Conventions in the interest of Mr Dickinson.

Carmichael wrote to Mr. Greeley last September, giving him his view about the coming Presidential campaign, and inviting Greeley to become a candidate. He told Mr. Greeley that the time had come to 'raft over' and he thought the democratic leaders would drop old issues and support him.

Mr. Greeley answered the letter in a short time. He expressed his willingness to become a candidate, but was fearful that the democratic leaders would not support him.—A letter from him invited Carmichael to an interview with him. Carmichael said he went down to New York soon after receiving that letter, and had a long talk with Mr. Greeley in the Tribune office. Greeley told Carmichael that Horatio Seymour was a standing candidate with the democratic party, and that Mr. Seymour would not step aside for him.

Carmichael answered that he could not tell about that, as Governor Seymour had not been asked, and had not said what he would do. Carmichael then offered to undertake to secure Seymour's consent and co-operation to the movement, and Mr Greeley agreed to be a candidate provided he succeeded with Mr. Seymour and other prominent democrats.

The result was that Mr. Seymour consented to the arrangement, after some hesitation.

The Journal prints the following list of the letters, and promises, if any attempt is made by those implicated to disprove any of its statements, either in court or elsewhere, to present a much better case than it now presents.

Lewis Carmichael to Horatio Seymour.—August, 1871. Proposing pensions for disabled rebel soldiers. [Affidavit of Charles S. Carpenter.]

Lewis Carmichael to Horace Greeley.—August 1871. Proposing pensions for disabled rebel soldiers and asking Greeley's views. [Affidavit of Mr. Carpenter.]

Horatio Seymour to Lewis Carmichael.—August or September, 1871. Declining to advocate then the payment of rebel pensions. [Mr. Carpenter's affidavit.]

Horace Greeley to Lewis Carmichael.—August or September 1871. Declaring in favor of a law giving pensions, by United States government, to rebel soldiers, though doubting its passage by Congress. [Affidavit of Mr Carpenter.]

Lewis Carmichael to Horace Greeley.—September, 1871. Addressing Greeley as "next President of the United States" and asking him to be the candidate of the democrats and all dissatisfied men. Carmichael gave his views about politics [Statement of Carmichael.]

Horace Greeley to Lewis Carmichael.—October 4, 1871. Deprecating democratic failure to nominate Chase in 1868 against Republicans; setting Chase for 1872 as "feeble and broken down;" proposing united action to "close the wounds opened by the war;" saying he could not see his way quite clearly to 1872. [Already published in part by us, and further certified to by affidavit of Dr. Ireland.]

Horace Greeley to Lewis Carmichael.—October 1871. Inviting Carmichael to call on Greeley in New York to talk over issues, &c., and expressing possibility he might consent to be a candidate. [Statement of Carmichael (who testifies Greeley fully consented,) statement of H. H. Howard and affidavit of Mr. Carpenter.]

Horatio Seymour to Lewis Charmichael.—About December, 1871. Referring to interviews of Greeley and Carmichael, and Carmichael and Seymour; expressing satisfaction with the progress of affairs; acceding to Carmichael's plan of non-committal tariff issue, and commending Greeley's acceptance of plan, as looking to the end. [Statement of Carmichael and affidavit of Dr. Ireland.—Carmichael asserts Seymour's subsequent full agreement to support Greeley.]

Horatio Seymour to Waldo Hutchins.—About February 1872. Seymour had been unable to see Hutchins, according to Carmichael's request, and so wrote to him. Contents of this letter best known to Seymour and Hutchins. [Statement of B. F. Arnold, esq.]

Horatio Seymour to Lewis Carmichael.—About February. Statement of these facts to Carmichael. [Statement of B. F. Arnold esq.]

Horace Greeley to Lewis Carmichael.—About February 1872. Suggestions that democratic influence should be exerted for Greeley at Cincinnati, and that Carmichael should go there. [Affidavit of Dr. Ireland, and statement of Henry Van Dusen.]

Horace Greeley to Lewis Carmichael.—April 1872. Suggesting that it was not politic yet to undertake an independent movement for Greeley in Otsego county, as Carmichael proposed. [Statement of Hon. R. W. Courtney.]

Horace Greeley to Lewis Carmichael.—Doubting whether the democrats would really favor him; and proposing to withdraw from the candidacy; but persuaded by Carmichael to wait and see. [Statement of Carmichael.

Lewis Carmichael to Reuben E Fenton.—About March. Enclosing Seymour's letter, noting what he (Seymour) had written to Hutching. [B. F. Arnold.]

Horace Greeley to Lewis Carmichael.—Stating the results of the Seymour-Fenton correspondence "all right." [Howard.]

Horatio Seymour to Lewis Carmichael.—May 1, 1871. Stating correspondence about Cincinnati Convention (as Carmichael explains). [Substance of letter already published, on our authority.]

Horatio Seymour to Waldo Hutchins.—April 1872. Contents known to Seymour and Hutchins. Stated by Carmichael to be final arrangement for Cincinnati Convention. [Acknowledged in Seymour's letter to Carmichael of May 1. Affidavit of Seymour's acknowledgement if challenged.

Waldo Hutchins to Horatio Seymour.—On or before May 1, 1872. Contents best known to Hutchins and Seymour. Seymour's letter says the reply of Hutchins was pleasant, or satisfactory. [Acknowledgement in Seymour's letter to Carmichael of May 1. Affidavit, if challenged.]

John Meehan, aged 22 years, was drowned Tuesday afternoon while bathing near the Grand Trunk bridge in Portland. It is supposed that he was taken with cramp. The body has been recovered.

THE PRESIDENT'S RICHES.

We copy the following plain statement from Senator Conkling's great Cooper Institute speech:—

The "Liberal" idea of decency and manly war, forces me to speak of another thing, which will grate upon your ears. The political scavengers pretend that the President has grown rich, as President, by illicit gain, and they parade his property by millions. We have fallen on sorry times, when the Chief Magistrate of the country, with a fame so great and pure, must give account of his private property in answer to electioneering falsehoods. The President would disdain to do it; I have no authority to do it; I do not assume to do it on his behalf; but on behalf of the party and the cause he represents I venture to state the facts.

At Galena, where he "tanned hides" he owned a house; and during the war he invested the savings from his pay in some lots in Chicago, and in some shares of street railway stock.

Mrs. Grant inherited her share in her father's farm in Missouri, and they bought out the other heirs with a portion of the hundred thousand dollars presented by citizens of New York. This one hundred thousand dollars also paid for a house in Washington, which was subsequently sold to Gen. Sherman, and a cottage and grounds were bought at Long Branch, after the Washington house was sold. The people of Philadelphia presented a house, which rents for about two thousand dollars a year. This completes the property of the President, with one exception.

Some years ago he purchased ten thousand dollars, in nominal value, of the stock of the Seneca Stone Company; to this day it has paid nothing, partly, because the President has interfered to prevent Seneca stone being adopted as building material for the Government. One of the plans submitted for the new State Department required the use of Seneca stone, and because of his being a stockholder, the President refused to allow the plan to be even considered. The other stockholders complained of this, saying they were punished, because the President owned stock; the President replied, expressing his regret, and saying that he would sell his stock or give it away but for imputations cast upon him by political opponents because of his ownership, but he deemed it unsuitable even to seem to defer to such calamity by parting with his stock.

Here, then, is the sum total of the President's possessions; and they can embrace no cigar smuggled in the dispatch bag, no costly works of art or rare wines bestowed by foreigners, no testimonials sent from other lands. In gratitude for efforts to tarnish the fair fame of his country. Every dollar he owns came from sources open as the day, and every month of his Presidency has made him poorer than the month before; and yet the country and Congress are disgraced by innuendoes and poisonous hints that vast wealth has been amassed in the Presidential office.

STATE NEWS.

Commodore Pennock, commandant at the Kittery Navy Yard, has been promoted to the rank of Admiral.

Brig Juno of Boston for St. John, N. B., went ashore in the thick fog off Rockland Thursday morning and is a total loss.

The Biddeford Times tells of a woman worth $200,000 who called for half an ice cream, and made the change in spruce gum.

The valuation of Biddeford has increased about $150,000 within the last year, according to the valuation of the Assessors.

Harry Jones of Hodgdon, lost seventeen sheep and lambs in one night, probably killed by dogs. Others in the neighborhood have had sheep killed.

Frederic Slipp of Hodgdon, in driving a load of hay into the barn struck his head violently against a pole overhead from the effects of which he is at times temporarily insane.

The Nantucket, at the Kittery navy yard, has been put out of commission and many of her officers have been detached and ordered to the Yantic, now preparing at Norfolk, Va., for service in the Asiatic squadron.

Messrs. Boardman Bros., launched from their yard on Wednesday, last, a fine schooner of about 150 tons. She is built of hardwood and hacmatack, and is intended for a coaster. Her name is "Louisa A. Boardman."

A little son of Winthrop Bradbury, of Hollis Centre, about five years of age, received a severe cut in the knee joint recently from a scythe in the hands of a brother a year or two older, which it is feared will cause lameness for life.

A writer in advocating State legislation to protect our forests says that, owing to the destruction of the woods in Paris, the average volume of water in the Little Androscoggin in that town is not more than one half what it was thirty years ago.

Mr. David Clark of Kennebunkport has opened a new ship yard, his present one being too small for his increasing business.—He is fitting up one vessel of about $350 tons for sale, and a frame is expected from the South soon for one of 600 tons.

There was a rousing temperance meeting at Belgrade depot on Monday evening. Addresses were made by Drs. Crocker and Brickett of Augusta, Mr. Colder, President of the club at Belgrade Mills, and Mr Frank Murphy of Portland. Fifty signed the pledge, and the liveliest interest was manifested.

William] Larkin of Portland, fell asleep while smoking in a comfortable position in a second story window at No. 1 Chestnut Place Boston, Sunday night, and the next thing he knew he was under treatment for a broken wrist and sundry injuries about the head and face, received in falling to the sidewalk.

At half past 3 o'clock Wednesday morning a fire was discovered in the shop attached to the store of G. Burnham on Burnham's wharf, Portland. The fire had a good start before the alarm was given and at 4 o'clock it seemed as if the whole building would be destroyed. The boat house of the Emerald Club sustained some damage.

Work was commenced in the new boot and shoe factory at Buckfield, early last week.—The superintendent, Mr. Hanson, intends to obtain some thirty workmen from Massachusetts. When in full operation the factory will employ from 75 to 100 hands. The building is two stories in height, 70 feet in length and 35 in width. It is satisfactory built, and is an ornament to the place.

Messrs. Thurlow and J. W. McDuffee had a consultation at the DeWitt House Saturday, and preliminaries were arranged for the great stallion race on the Lewiston Trotting Course, August 27th. Mr. Thurlow enters black stallion Phil Sheridan, and Mr. McDuffee bay stallion King William, and the rest will be best three in five to harness for a purse of $2,000, according to the national rules. One thousand dollars of the money is on deposit at the DeWitt House.

The Portland papers report quite a commotion to have occurred among the pleasure seekers in the vicinity of Yook Harbor the other day, caused by the capsizing of a sail boat containing a young lady and a gentleman with rubber boots on. The young lady clung close about his neck, and the boots hung heavily on his feet, yet he succeeded in keeping himself and his fair burden afloat until a boat half a mile distant at the time of the accident arrived and rescued them.

The Argus says: In the case of the woman with the small-pox, discovered on the Boston steamer Saturday, evening we are happy to learn that none of the passengers were exposed, nor could the boat have been infected. The woman went upon the steamer just as she was departing and took a retired position upon the guards, evidently laboring to escape attention. She was discovered by the ticket collectors and the steamer at once returned. It is in every degree probable that no person on board could have contracted the disease, even if it had reached a state of dissemination, which it had not, we understand from competent medical authority.

WHAT GREELEY'S ELECTION WOULD BRING

A short time since we published the trade circular of Messrs. Thos J Pope & Brothers of New York a leading house in the metal trade, in which the damaging effects of Greeley's candidacy on the markets was stated as a grave matter of business import The circular was not designed for the public eye It is the simple business statement of a business firm addressed to the business houses of the country, and it shows the alarm which is felt in mercantile and financial circles at the bare possibility of the Government being thrown into the hands of such a set as Mr Greeley and his associates The Tribune resents this damaging quotation of the disturbing elements in the circles of trade, by a venomous attack upon the firm which will have about as much effect upon the laws which govern the sensitive markets of the country as an effort to whistle down a tempest In reply to this assault a member of the firm publishes a card vindicating the right to state the causes of depression in business and sustaining the truth of their trade circular In concluding Mr Pope says

I enclose the following clipped from the Evening Post of July 18 It shows that we are not single in our ideas about Mr Greeley and furthermore, most of the business men of the country find in this article an expression of their fears in the event of Mr Greeley's election

(From the N Y Evening Post

In the third place there is every reason to expect the most serious financial disturbances if Mr Greeley is elected We do not refer to the question of protection, though the advent to power of a man who actually advised the Liberal Republicans not to nominate him on the ground that he was a 'ferocious protectionist' is alarming enough But there is another point on which Mr Greeley is understood to hold views of the most extraordinary character which if he should carry them into execution would involve the country in a frightful crash The Tribune (and this, too, was before Mr Greeley withdrew from it) has continually and persistently put forth the idea that the only thing necessary to bring about a resumption of specie payments is to put a notice on the Treasury doors announcing that on a certain day specie payments shall be resumed and presto the thing is done The gold with which to perform this amazing feat is what the Tribune calls the surplus gold But everybody knows that this surplus gold is only a balance which is no real surplus, but comes into the Treasury one day and goes out of it the next It would be no joke to resume specie payment in this way The immediate effect of it would be a financial panic, from all changes of this kind we are likely to be exempt if Gen Grant remains in office. Indeed, if the Administration will only let gold alone, and neither contract or expand in short do just what Gen Grant's Administration has been doing, the elasticity of trade and the increase of population alone will bring gold to par, just as it has been brought from 300 to 112

In reply to all this it is said But we know what the defects of Grant's Administration have been Greeley's Administration has not been tried, and he may be better Now, the fact is, that Gen. Grant has been in office four years, while Mr Greeley has been discussing politics in a pretty open manner for forty years under our eyes here in New York If we don't know him, no one does.

A gentleman in Lewiston, advertises in the Journal of that city that he has two good house lots in Lewiston, and four good carriages, which he will sell to any Democrat, to be paid for when Grant is elected President of the United States.

The Rockland Free Press says —"We have recently been looking over the figures, and the result is that we have calm and perfect faith in the re-election of Hon. Eugene Hale, against Frederick A. Pike or any other man whom the Dolly Varden Convention of trading politicians can nominate."

"I venture to suggest that Gen. Grant will be far better qualified for that momentous trust [of the presidency] in 1872 than he was in 1868."—HORACE GREELEY.

Mrs. Woodhull's admiring biographer has gone up stair to confuse the minds of the rural Bourbons by gloating over the annihilation of Democratic doctrines and showing Grant who took a lively hand in that well concerted business.

THE "RELIABLE" ARGUS

The Eastern Argus having boldly fabricated an edition of an Associated Press dispatch from this city, on being exposed, assailed the Bangor Agent with spiteful vigor to cover its own offence. The Agent who has long discharged his duties here in a faithful and impartial manner, addressed a reply to the Argus, taking what has proved to be a necessary precaution, in forwarding a copy to the Press. The Argus not only suppresses the reply of the person it assailed, but makes no allusion to it whatever It does mention the controversy in an indirect manner, and makes this remarkable statement

"The Argus reserves the right to *edit* its own dispatches and no radical, if we can help it, shall creep before the public, with a partizan statement through the *independent* and *truthful* telegraphic columns of the Eastern Argus"

This is about the coolest exhibition of impudence on record That a newspaper should assume to modify and garble the dispatches sent it in common with other papers, from persons at all points of the country, to suit the political views of the editor is something novel, and when this same genius announces that he will *"edit"* the reports of other men by adding statements of his own to appear as from the Associated Press reporter his talk about "truthful telegraphic columns" is exhilarating. The people will be glad to learn how the news is manufactured by the Greeley organs in Maine. We give below the dignified letter of the Associated Press Agent of this city, as addressed to the Argus, but published only in the Press

BANGOR, July 23, 1872

To the Editor of the Eastern Argus—

SIR —In sending telegraphic reports of political gatherings, I have in this campaign, as in previous ones carefully abstained from any expression of opinion, confining myself strictly to facts, and giving fair and impartial accounts, and placing my estimate of numbers upon my best judgment, and a careful comparison of notes with persons qualified to judge

My statement that some four thousand" were present at the Greeley meeting on Saturday evening was given as a liberal estimate of the number present at half past eight o clock, and upon my return from the telegraph office an hour later, I placed the number present to be at least one thousand less than that number The Herald's correspondent (who is local editor of the Commercial) gave me upon the stand as his estimate of the number present "four thousand"

This was before he had consulted with Mr. Emery as to the figures he should send

As to enthusiasm, I carefully avoided, lest it should appear prejudiced, to state, what was the *truth*, that there was *an entire lack of it*, the only outburst, which was at all general, being made when Gen Kilpatrick alluded in complimentary terms to the military record of Gen. Grant, when the applause was hearty and prolonged So much for what you say as to "reliable accounts," according to which you place the estimate at from eight to ten thousand" present," with the 'greatest enthusiasm"

This, however, is perhaps to be expected of partisan papers, during a heated political campaign, but what shall I say when you append to my despatch, as though reported by me, the following which I find in Monday's Argus, but which has but this moment come under my eye.

"Bangor is sure for the Democratic nominees in September and November next"

Such a statement, placed in such a connection is not only false, but scandalous and libellous, as it places me in the attitude of using my position for political purposes, and sending forth to the world my guesses as to results, instead of statements of facts from which others can draw their own conclusions.

As an honorable man you will publish this correction in your next issue.

J SWETT ROWE,
Agent of the Associated Press

GREELEY'S FRIENDS

In his speech at St. Louis Mr. Schurz read a correspondence which has recently passed between Mr Greeley and himself. Mr Schurz on June 26th wrote to Mr Greeley, asking him to refute the charge of low political associations, so repeatedly made against him. To this Mr Greeley made reply:

I pass over the allusion to my political associates, barely remarking that an imputation so vague can never be specifically repelled Charity is a virtue rarely exemplified in politics, and most men live and die in the undoubting conviction that their political opponents are the greatest scoundrels unhung I trust that my age and your experience have lifted us above such prejudices, enabling us to realize that the many sincerely desire the greatest public good, even when most mistaken in their choice of means I know who my friends are better than my traducers do, and fear no scrutiny as to the integrity or patriotism of any to whom I give my confidence And should any such ever seek to swerve me from the path of rectitude, they would cease to be regarded by me as friends"

In commenting on this the N. Y. Post says.

This is all very well, but we are sorry to say that it was not what Mr Schurz wanted to find out. Any one can promise reform, but Mr Schurz wanted to know why, if Mr Greeley intended to reform the government, he had entered into political alliances, in advance of his election, with such men as John Cochrane, Senator Tipton, George N. Sanders James M Ashley, Colonel Allen and Mr Fenton What he wished to know was, what was to become of these active supporters after the election, how they were to be provided for, and why, if the civil service was to be really reformed, they were now made use of In reply Mr Greeley "passes over" these vague imputations. But the imputations are not at all vague, as Mr. Greeley knows very well It is the reply which is vague

KILPATRICK The following would indicate that the slashing cavalryman found some old acquaintances at Augusta.—

An army officer suggests the inquiry whether a certain unpleasantness between General Kilpatrick and Secretary Stanton in 1862, concerning the disposition of certain horses and mules, would not form an interesting item of his cavalry experience. We believe the General did not mention it at Norombega.—[Bangor Whig & Courier

There is a gentleman in this city who was once commandant of the Capitol Prison in Washington He has lively recollections of Kilpatrick while in that position, and tells some facts which the Greeley trooper would rather not hear —[Kennebec Journal.

Governor Noyes of Ohio has accepted the invitation of the Republican Committee of Maine to participate in the canvass in this State He will speak from the 7th to the 14th of August.

MORE GREELEY LIES The stories of the Ku Klux outrage upon a colored disciple of Greeley in North Carolina turns out to be a hoax, and the story of the whipping of Cross, the Greeley marshal, was a pure fabrication for political effect.

The Marquis de Noailles, the new French Minister, was formally received by the President, Wednesday

The Belfast Journal snubs "Percie" for giving the Democratic nomination to Pike, and intimates that the old liners will have something to say. It says S F Nickerson has withdrawn, and Waldo County will present but one candidate, W H. McClellan

The Georgia Democratic State Convention nominated Governor Smith by acclamation, and reaffirmed the platform of 1870, with the amusing proviso that they recognize the exigencies of the times which suggested and secured the nomination, by the Democratic Convention at Baltimore, of Horace Greeley and B. Gratz Brown.

There was a disastrous fire at Jersey City, Wednesday night, consuming the car, repair, machine, paint, carpenter, and other shops belonging to the Erie Railway. Among the property destroyed, were 23 locomotives. The machinery was very valuable, one trip-hammer alone costing $60,000. The origin of the conflagration is in doubt. The loss is estimated at $2,000,000. Several lives were lost.

GERRITT SMITH ON THE CAMPAIGN.—The veteran abolitionist Gerritt Smith, writes as follows on the issues pending in the Presidential campaign. As a great champion of equal rights and a pioneer in the Republican party, his words are entitled to high consideration

"By all that is abhorrent in oppression and cruelty and murder, the Democratic party must be kept out of power It is said, however, that the Democratic party has been kept out of power a dozen years, and that it is now time to forgive it, and to let it try its hand at ruling again. No, it is not. When, then, will it be time? Never! Never! What not if it repent? It cannot repent. It has sinned to long and too deeply to be capable of repentence It cannot rise up out of the bottomless depths of its political wickedness. As that generation of Israelites which rebelled against heaven was shut out from the Promised Land, so must this generation of impenitent Democrats, of rebellion-favoring Democrats, of negro hating, negro-whipping, negro-hanging Democrats, be forever shut out of power. Time enough will it be for the Democrocy to come again into power when the present Democrats (the youngsters excepted) are all dead. Thankful should our Democrats be that the penalty of their crimes fall but upon themselves and not upon their children also. Thankful should they be that under our unmerciful constitution there can be no Bill of Attainder—no disqualifying of children because of the crimes of their parents,"

On the 17th of May last the Hon Dan. Voorhees wrote to a friend as follows

"The reason why I will not support Greeley is that he is no better than Grant in any respect, and in some points he is worse This was my meaning when speaking in the House No honest and intelligent Democrat can support either Grant or Greeley without first abandoning his principles. Fire and water can mingle more easily and consistently than I could become an adherent of either of them. I shall stand by my sincere and life-long principles. If I did otherwise I would be a dishonest man, unworthy of my own respect or the respect of anybody else. If for this course I am to be condemned, I am content. I would not take any other for all the honors the world has to give"

Mr Dan. Voorhees now swallows all this, irrespective of "all the honors the world has to give," and supports Greeley. Was ever there another instance—save always in Greeley's own case—of such thorough self-stultification

Mr S T Streeter, a member of the Liberal Republican Committee of New York, is out in a letter declining that office, and announcing his purpose to support Grant and Wilson. He writes:

"I chose to act in my district with what was known as the Greeley faction, believing that I could there best serve the party, the State and right But recent events have forced upon me the conviction that the line of duty no longer lies with that faction. The contest is no longer between factions of the Republican party, but between the Democratic and Republican parties—pure and simple In that contest I propose to stand by the Republican party."

"Whatever chastisement may be deserved by our national sins, we must hope that this disgrace and humiliation [of having the democracy restored to power] will be spared us "—HORACE GREELEY

A Democratic paper says: "We are forced to laugh when comparing the contents of the New York Tribune to day with those of only a few months ago" Well, it is rather amusing to see the Tribune operating as a Democratic journal.

Schenck's Mandrake Pills for Liver Complaint.

Liver Complaint, Jaundice and all bilious disorders arise from torpidity of the Liver, causing a flow of unhealthy bile inflammation of that organ producing an overflow into the stomach and intestines, or from a derangement of the digestive organ with which the liver is so closely connected Unhealthy bile in the gall bladder and the liver still shoring, crowding this unhealthy matter into the blood and which it then circulates over the body, causing a sallow tinge and torpor of the whole system Either of the above described derangements of the functions of the liver produces numberless trains of diseases the whites of the eyes yellow, the tongue coated with a feverish white or brown tinge Where the liver is disordered, digestion is unhealthy, sometimes a low appetite and sometimes none at all, the patient will suffer from costiveness or diarrhea or sometimes both, a general drowsy and melancholy feeling often watchful and sleepless great weariness faintings are often felt. The stomach laboring to digest food often creates a palpitation of the heart, and is frequently mistaken for heart disease Frequently the skin breaks out in biles and sores, or marked symptoms of erysipelas with great itching and insufferable restless ness The irritation from scorged bile in the blood often produces an irritation of the mucus membrane of the bronchial tubes and from a slight cold severe cough follows with a dry ropy expectoration often nausea and vomiting. This unhealthy bile mixed with the blood passes into the kidneys produces pain in the urinary passages sometimes pain in the back and darting pains through the shoulder blade, and frequently all through the body a soreness is frequently felt about the region of the liver across the stomach and spine Many dangerous complaints have their origin in a derangement of the liver and stomach Two-thirds of the cases of Consumption originate from liver complaint, intermittent remittent and bilious fevers, bilious colic costiveness, diarrhea chills and fever, &c Frequently one box of Schenck's Mandrake Pills will remove all those diseases, they have an effect on the liver similar to mercury By taking a dose according to the directions, and then one Pill a night for a week or ten days, they will regulate the liver and throw off all impurities and soon perform its natural functions without the use of large doses of purgative medicine In the spring of the year those billious disorders most commonly commence, and a box of these Pills may prevent a continuous disease the whole season They are warranted not to contain a particle of calomel or mercury, in any shape, and are perfectly harmless

My Pulmonic Syrup has been before the public many years and has raised hundreds from their death bed Since the invention of the Mandrake Pills I can succeed in many cases where I could not before. The stomach and liver are often so inactive the Syrup cannot digest and the Mandrake Pill a night although the patient will think they were having no effect, will soon regulate the stomach and liver without reducing the patient, and the Pulmonic Syrup will assist in getting up a healthy circulation These Pills act on the liver similar to calomel and I do solemnly assure the public that there is no calomel or mercury in their composition, or anything to injure the system I met a gentleman the other day in front of the Girard House, and he asked me if I ever recommended my Pills for piles I answered no He said that Mr Conklin sent to my store a short time ago and got a dozen boxes and gave him one, as his wife had been costive for years and had the piles very bad for a long time, and was almost afraid to take them on that account, but Mr Conklin recommended them so highly, that she commenced taking them one every night and she is now well, it cured the piles and her bowels are as regular as they can be

These Pills were invented to assist Schenck's Pulmonic Syrup in curing Consumption when there is constipation of the bowels and a torpid liver but they are used now for nearly every complaint They even prove to be a great Vermifuge Some few weeks ago a lady called on me and said she had liver complaint for many years. I gave her a box of Pills She came back in a week, and said she had passed several worms ten inches long

An old gentleman in Baltimore, that had been complaining with a cough pain in his right side, skin sallow, tongue coated, bowels costive and a dried up appearance called on me at my room. I gave him the Sea Weed Tonic and Mandrake Pills. He came back the next week to see me, and said he was much better, and that he had passed thousands of these small worms. He is now well

About eight years ago, when I was receiving patients at the Marlboro Hotel in Boston a Lady called on me and said she had been complaining for a long time with a Tape-Worm, as her physicians thought She said that she was in great pain, at times something would twist around in her stomach and even come up towards her throat and bite and almost set her crazy nothing would satisfy it but milk, she would have to take a quart every night to bed with her and when it would begin to move she would take a drink to satisfy it. This lady when she visited me was a sight to behold bowels very costive, tongue coated breath offensive, and a dried up, sallow complexion very nervous, and almost a subject of the insane asylum. I gave her some SEA WEED TONIC and MANDRAKE PILLS in large doses, ten pills for three consecutive nights, and then one each night for three nights her bowels being in such a congested state it required an enormous amount of pills to unlock them) and then to come and see me again. She came and said she was very sick said she did not crave any milk now This convinced me that the animal, or whatever it was troubling her was dead I ordered her to take ten more pills; after taking them she passed something resembling a snake or a lizard between five and six inches in length This lady is now well and lives at East Boston.

Professional Success.

DR H. A. BARROW'S practice in Bangor has been extremely successful. He has restored several patients to sound and vigorous health, whose cases were considered incurable He continues to be confidently consulted as usual, at his private office, 18 Main Street, Bangor, Maine, in all those cases of diseases for the treatment of which he is so justly celebrated Hundreds are suffering from the effects of early indiscretion because they have not consulted the educated Physician who has made these diseases a specialty, and therefore endowed with every qualification for success, restoring the patients to health and strength.

Dr Barrow's treatment during an attentive practice of many years is eminently successful in curing Nervous, Mental and Physical Debility, Languor, Depression of Spirits, Painful Dreams, Loss of Appetite, Memory, &c. His great experience, the high honors and testimonials he has received for his superior treatment of those diseases requiring skillful and confidential advice, enables him to ensure a safe and speedy cure.

The Doctor particularly invites those patients whose cases have been neglected or pronounced incurable, to place themselves without delay under his care, assuring them that all that can be accomplished by science, skill, and the successful results of a long practice will be at their service

He distinctly states that no case will be undertaken unless a permanent cure can be guaranteed All letters containing the usual consultation fee $5, and fully describing the case, will be immediately attended to

THE COMMENCEMENT CONCERT,

last evening, was a success. The singing of Mrs. Mabel Burnham brought the house down repeatedly with rapturous applause, and the Germania Band sustained their well-earned reputation. After the concert there was a grand ball at the Town Hall. It was a dressy affair.

Hanson of '42, and Hon. William Whiting of Boston. Honorary Degree of A. M. on H. F. Eaton, Norridgewock; Rev. J. O. Skinner, Waterville; W. T. Sargent, Fryeburg; H. O. Walker, Deerfield, N. H.

The first prize at the Junior exhibition was awarded to Jefferson Taylor, Vassalboro', and the second to Nathaniel Butler, Jr., Alton, Ill.

A GRAND RECEPTION

at the President's house in the evening closed the Commencement. Since the resignation of President Champlin a committee has been appointed to select a man to fill the vacancy.

ADDRESSES.

After the Commencement dinner speech-making was opened by Hon. Hannibal Hamlin, who in a brief speech alluded to the fact that the Alumni of Colby University occupied positions of great responsibility on the shores of the Pacific, in the Halls of Congress, in the pulpit and at the bar, and closed with an eloquent eulogium on the retiring President, Dr. Champlin. He was followed by Hon. Chas. R. Whidden of Calais, Rev. Dr. Cutting of New York, who contrasted the condition of the College in 1831 with its present condition, followed by Rev. Mr. Penticost of Brooklyn, Dr. N. M. Wood of Shurtleff College, Alton, Ill., Mr. Williams of Boston, Rev. Mr. Fairbanks, class of '47, of Mass. Prof. Fernald of the Maine State Agricultural College, and by the President of the College.

PRESIDENT CHAMPLIN'S VALEDICTORY.

Dr. Champlin made the following retiring remarks:

"I thank you, Alumni, for your kind remarks in my behalf. I do not leave the college in a fit of despair or discouragement. I feel that there is a bright future before us—As has been said here this afternoon, the College is founded, and well founded. In the past ten or fifteen years we have seen what could be done by an effort. When the war came upon us many whose bones are crumbling in the distant South left their studies and the College seemed nearly deserted. Still we have survived. When I became President, fifteen years ago, there were ten or fifteen thousand dollars in the treasury. Now there is a permanent fund of over two hundred thousand. Besides this we have property given by the State, valued at fifty thousand dollars. When I came here the buildings were valued at about seventeen thousand dollars. To-day they are valued at over one hundred thousand dollars and they are all paid for. True, we have not as many students as before the war, but what we have are good. Various causes have contributed to diminish the numbers. The College is in a sound condition. I need not say that our faculty is an able one. I hope you will get a President as my successor who will do for the College even more than I have done. In taking my leave of you I can say that I have spent here thirty-one years, the best years of my life. Here are my interests and here are my affections, and here I hope to live and co-operate with you."

FROM BIDDEFORD.

CONGRESSIONAL NOMINATION.

BIDDEFORD, July 25.

The Democratic Congressional Convention for the First District met in this city to-day. There were eighty-six delegates from Cumberland and ninety from York. Hon. N. S. Littlefield of Bridgton presided. A motion to nominate W. H. Clifford of Portland for Congress by acclamation, was discussed and withdrawn. On the first ballot W. H. Clifford had one hundred and fifty, and W. P. Haines three. The nomination of Mr Clifford was made unanimous. Mr. Luther S. Moses of Limerick was chosen Elector. C. H. Haskell of Portland, L. S. Moore of Limerick, H. K. Bradbury of Hollis, F. T. Littlefield of Bridgton, E. C. Spinney of Kittery and Lemuel Stover of Brunswick were chosen District committee. The resolutions of the Baltimore Convention were adopted and the convention adjourned with cheers for Mr. Clifford, its nominee for Congress.

FLAG-RAISING

GARDINER, July 25.

The Liberal Republicans of Gardiner threw to the breeze to-night a beautiful American flag bearing the names of Greeley and Brown, and with these words inscribed: "Honesty and ability and one term," and "the pen is mightier than the sword." The Gardiner Band was present, and when the flag was unfurled played The Star Spangled Banner and several other pieces. The flag was greeted with cheers by the large crowd assembled.

THE "NEW ENGLAND."

PORTLAND, Me., July 25.

Steamer New York arrived to-day bringing passengers of the New England together with her furniture. The captain reports the New England lying on the rocks and heeled towards the land with a hole in her bottom, but not broken up. Her boiler and engine are in her and an attempt will be made to get her off.

DOMESTIC NEWS.

Great Jersey City Fire!

DESTRUCTION OF THE ERIE BUILDINGS!

Loss Estimated at $3,500,000!

Several Lives Lost!

1100 HANDS THROWN OUT OF EMPLOYMENT!

Incendiarism Suspected!

THE FIRE—LOSS OF LIFE.

NEW YORK, July 25. The Erie buildings burned last evening covered an entire acre. No such fire had ever before been witnessed in Jersey City. Besides engineer McCarthy of the fire department, who met a horrible death from the falling of the walls, and a fireman, Charles Nagle, a stoker of the same engine, was also crushed, but escaped with a broken leg. McCarthy's wife and three children are visiting in Boston. One man, a machinist, entered the building near the commencement of the fire for tools, and it is feared that he perished.

ENORMOUS LOSSES.

The fire lasted two hours. It is estimated that it destroyed property amounting to $3,500,000. All the property except the tools was insured.

A SIGNIFICANT FACT

connected with the fire is that at the late strike all the Jersey City men were notified that they would not again be employed. This threat was carried out, and the employes were from New York and Paterson.

THE SCENE OF THE FIRE.

The flames illuminated the shipping in the river and on the New York side for a great distance. The scene around the fire was one of excitement and bewilderment. The mechanics and their wives were rushing to and fro, giving expressions of regret at the loss of their tools and prospective idleness.

THE ENTIRE PREMISES

covered five or six acres. Upwards of 1100 hands have been employed. There is no instance on record of a destruction so sudden and complete. The machinery can only be sold for old iron.

ESTIMATED LOSSES.

It is now estimated that the loss by the destruction of the Erie Machine shops last night is fully $2,000,000; the machinery was valued at $800,000, and the 24 locomotives $110,000; the buildings at $80,000 and the patterns at $10,000.

ANOTHER VICTIM.

A carpenter named Crosby went into the shop to get tools and was burned to death.

NEW YORK.

HIGHWAYMAN SHOT.

NEW YORK, July 25. A highwayman named Wm. Davis, attacked a Mr. Willis, on Bleecker st., last evening, and stole a diamond ring from him worth $1100. Davis was captured by the police after being twice shot.

THE DARIEN EXPEDITION.

Minister Bernard from Nicaragua, Lieutenants Rhodes and Goodwin and other naval officers, lately attached to the Darien Canal Surveying Expedition, arrived here to-day.

FINANCIAL.

The specie export to-day per steamer Westphalia, for Europe, was $335,000. The bids to day for Government gold aggregated $4,315,000, at 114 12½|100 to 114 60|100.

THE STOKES CASE.

Stokes to-day said that his counsel would apply for bail Monday, but no notice of the intended application has been sent to the office of the District Attorney.

The application for the release of John T. Redmond and Thomas and Patrick Hart was made to-day before Judge Pratt, on the ground that the Carriers commitment did not say they were material witnesses. The case is not concluded.

SANITARY.

Commissioner Vannort has ordered fountains for the use of man and beast to be placed on all the leading avenues.

RUM'S WORK.

Jeremiah Dugan, while drunk last night, threw his wife down stairs head foremost. She was so badly injured that probably she will not recover.

A FIRE

occurred this morning in McCollam & Autenzito's brass foundry at Hunter's Point. Loss, $10,000; insured.

THE LEVEY SHOOTING CASE.

The anti-mortem statement of Isaac S. Levey, of Woodhaven, L. I., who was shot last night by Richard Dolan, was taken today. There is no probability of Levey surviving. Dolan has not been arrested.

THE EXCISE BOARD

has resolved to enforce the excise law, and has given orders to have all who sell liquors on Sunday reported for prosecution.

THE OLD LINERS IN COUNCIL.

Blanton, Duncan, M. M. Pomeroy, Bayard, of New Jersey, Van Allen, of New York, and others, leaders of the straight out Democratic movement, held a private conference at the New York Hotel this afternoon, to institute an organization throughout the United States. They report responces from all quarters, and the call for the 3d of Sept. Louisville Convention, and say that a full delegation from all the States will be there.

IN GENERAL.

The President arrived from Washington this morning and went on to Long Branch.

The French band will not return until the 10th of August.

The headquarters of the National Democratic Committee at the Spingler House, were opened for business to-day.

Parties in a position to know the truth of the report that a suit will be brought against Daniel Drew by the Erie Company, pronounce the story entirely without foundation.

Dr. Simon Pfaft, of Newark was arrested to-day on the charge of abortion upon Mrs. Elizabeth Hendershot of Hakettstown, resulting in her death.

MINNESOTA.

THE CHIPPEWAS ON THE RAMPAGE IN BRAINARD—THEY THREATEN TROUBLE—THE MILITARY CALLED UPON.

CHICAGO, Ill., July 25. The St. Paul Dispatch says that dispatches were received last night by Gov. Austin, from Brainard Minnesota, stating that the town was filled with Chippewa Indians who were threatening trouble. They were ordered to leave, but refused, and the Governor called upon the troops. Three companies of the 1st regiment were ordered to leave on a special train this morning, and will be joined on the route by the other companies. The cause of the trouble is said to be the hanging by a mob of two murderers of Miss McArthur.

INDIANA.

FATAL EXPLOSION.

NEW YORK, July 25. Three people were injured at Rushville, Ind., yesterday, one fatally by the explosion of a cannon while a political salute was being fired.

POLITICAL.

"LIBERALS."

NEW YORK, July 25. The Liberal Republican State Committee met yesterday and discussed the question of a State Convention. The Convention will probably be called in a day or two—Syracuse will be the place.

A NICE PAIR.

Frank Blair was closeted a short time with Horace Greeley yesterday.

NORTH CAROLINA.

A Herald dispatch from High Point, N. C., says that 5000 people assembled there last eve to hear McClure, of Penn., reply to Boutwell's speech. At Raleigh Secretary Delano had mostly colored people for his hearers. Ex-Gov. Harriman, of New Hampshire, and Senator Poole followed in speeches. The whole State is overrun with leading politicians of both sides, from all parts of the country. Gov. Baker, of Minnesota, also addressed a meeting last eve at Raleigh.

NO MORE CHAPPAQUA CHATS.

The Tribune to-day gives notice that in view of the fact that the Times has a reporter who conceals his calling to make a note of all private conversations of Saturday visitors to Greeley at Chappaqua, the friends of Greeley who care to visit him there are requested not to do so after the Saturday of this week.

VIRGINIA.

GRANT AND WILSON.

RICHMOND, Va., July 25. Senator Wilson and Frederick Douglass spoke here last evening at a Grant and Wilson ratification meeting. Everything passed off quietly.

THE GENEVA ARBITRATION.

Geneva, July 25. The Alabama Tribunal reassembled at half-past two this afternoon and after a session of four hours adjourned to Monday. Rigid secrecy relative to the proceedings was strictly maintained. Nothing of importance was maintained.

FROM THE PACIFIC COAST.

ADMITTED TO BAIL.

SAN FRANCISCO, July 25. Mrs. McKinney, a young woman who shot Wm. Cummings dead at Petaluma for slandering her, has been admitted to bail in $20,000.

THE CARRUTHA'S SUIT,

involving the title to a large portion of Portland, Oregon, was decided in favor of the plaintiff.

INDIAN AFFAIRS.

Letters from Camp McDowell, Arizona, state that delegations from Tonto, Pival and Cayetio, Aysaches and Apache Mojave Indians came into that part professing peace, but as they represented only a portion of the tribe numbering over 1000 warriors, they were evidently impelled by the movements of the troops under Gen. Cook. They were informed that they must all come in and surrender their arms and agree to remain on the reservation.

THE WEATHER.

WAR DEPARTMENT, OFFICE OF THE CHIEF SIGNAL OFFICER, WASHINGTON, July 25.—8 P. M. *Probabilities.*

THE EMPEROR SQUELCHES HIM!

The Journal states that the publication by Catacazy of his pamphlet in relation to his imbroglio with Secretary Fish, was entirely without the knowledge, and against the will of the government.

THE DOMINION.

THE MANITOBA INDIANS.

TORONTO, July 25. The following advices have been received from Fort Garry, Manitoba:—

Indian Commissioner Simpson returned today from Fort Francis, where he has been attempting to make a treaty with the Indians. His efforts were entirely unsuccessful. For 13 day he was surrounded by 2500 savages, who would neither entertain nor make propositions in regard to a treaty.

THE GOLD DEVELOPMENTS

in Sheboudawin county had filled the Indians with ideas too lofty for approach. Simpson is confident that unless a military force is provided there will be serious difficulty with Indians. The Indians told him they proposed to stop mining operations.

ORANGEMEN.

TORONTO, Ont., July 25. Mr. Johnson, member of Parliament for Belfast and Deputy Grand Master of the Orangemen in Ireland, arrived last night. This morning an

—The New York Evening Post republishes our obituary notice of the late Hon. Elijah D. Hamlin of this city, who was well known to many of its literary and scientific readers.

—A car-load of scraps of moccasin leather was at the Maine Central depot yesterday, which is going to Rockport, Mass., where the experiment of manufacturing them into superphosphate of lime will be tried. This will be turning to good account a large amount of waste material if the experiment proves successful.

RAILROAD RESTAURANT. The new restaurant in the basement of the E. & N. A. depot was opened yesterday. The entrance is in front of the building between the doors of the two waiting rooms. A short flight of stairs lead down, where on the right are two dining rooms, on the left a salesroom for confectionery, etc., and a very neat kitchen conveniently arranged. The dining-rooms are fitted up with ash tables and chairs, and everything is in good order for the accommodation of travellers. It will be under the management of Mr. J. Fields Murry.

DOVER AND FOXCROFT AWAKE—A GRANT AND WILSON CLUB. Agreeably to a call signed by about one hundred and fifteen voters of Dover and Foxcroft, a meeting was held in Mayo's Hall on Wednesday evening to organize a GRANT AND WILSON Club. Although the weather was unpleasant there was a large assemblage of citizens who manifested much enthusiasm. Short speeches were made by Hon. E. Flint, C. H. B. Woodbury, J. E. Rowell, Esq., J. B. Peakes and others. Committees were chosen to present names for permanent officers and further the interests of the Club. After three hearty cheers for Grant and Wilson the meeting adjourned to meet on Saturday evening to complete the organization.

A BRUTAL FIGHT. A brutal and cowardly fight occurred at Boom Brook, Tuesday night, between the crew employed there, numbering about fifty men, and the crew from Nebraska boom, numbering seventy-five men. It seems that during the day a French and an Irish boy had a fight in which the French lad got the best of the scrimmage. This raised the ire of the Nebraska crew, who are Irishmen, and in the night they went over to the other boom, armed with clubs, and made an assault on the men there, who were asleep.—Rushing into the tent in which the men were sleeping, they awakened them with yells and by their blows which they vigorously applied right and left. The party attacked thus unawares, ran in every direction, many leaving their clothes behind, so completely were they taken by surprise. Several of the men were severely cut about the head by the bludgeons wielded by their furious assailants. We learn that the Directors will take the matter in hand and see that some atonement is made for the outrage.

A RUNAWAY. An exciting runaway accident occurred in Pickering Square yesterday afternoon, which came near making up a chapter of disasters. A horse attached to a heavy market wagon, was standing near the Nichols House, where his owner had fed him, when by some means he became frightened and ran round the square among wagons and pedestrians at a furious rate. In his course the wagon to which he was attached struck a buggy in which two of Mr. John McCann's daughters were riding. The shock broke the hind wheel of the buggy, throwing out the two occupants, one of whom, Miss Susie McCann, was thrown against the wheel and narrowly escaped being severely injured. After several more narrow escapes from a smash-up the runaway in attempting to run across a jigger, fell, breaking both shafts of the wagon and cutting himself considerably. The broken wagon was taken away which left the horse completely loaded on the jigger, he was released from his position a sadder if not a wiser horse.

POLITICAL AND PERSONAL.

"Brick" Pomeroy's La Crosse Democrat is dead and the Chicago Post reports that he is to join the New York Tribune's editorial staff!

The Washington correspondent of the New York Evening Post states that Senator Sumner has informed John M. Langston "that he could not advise colored men to vote for Greeley."

On Monday the prominent colored citizens of Washington held a consultation, with a view to the issuing of a letter of advice to the voters of their color in the United States. During the meeting it came out that all were opposed to Greeley, and would not vote for him.

The Indianapolis Journal says: "Rural and partially honest Democratic papers which have not as yet learned to diligently follow in their leading strings, occasionally wound the great heart of Horace by referring to Tweed as a 'great thief.'"

The Kentucky Statesman says Democrats in that State, disgusted with rebel deceit in foisting on the party the doting Horace, and having an aversion to "crow," whether raw or boiled, are coming out for Grant, and thus forsaking forever the "ways that are dark and tricks that are vain."

In 1868 the Democratic candidate for President was taken from the State of New York and the Vice-President from Missouri. The nominees this year come from the same States, and were both supporters of Grant in 1868. The parallel will be still further continued in November by the defeat of the present nominees.

The New York Times says: "The most encouraging reports reach us from well-informed quarters as to the prospects of the Republican party in the State of New York. The Tammany candidate will quite surely go out of Manhattan Island with a majority so much less than that which has often been obtained by the party that has taken him up as a last resort, that he will be unable to stand at all before the overwhelming mass of true Republican votes that will be poured upon him from the interior."

Greeleyites in Indiana have been claiming very confidently that the Quakers in Wayne county will certainly vote the Cincinnati ticket. A little incident which the Indianapolis Journal relates shows where their sympathies really lie. The Journal says: "At Dublin, where Julian spoke the other night, they refused to allow him the use of the public hall, which is owned by Quakers, declaring that they wouldn't let Jeff. Davis occupy it, and didn't see why Julian should. George W. accepted the situation and held his meeting out of doors."

A New York Democratic ward politician expressed the sentiment of Tammany when he remarked, apropos of the Baltimore Convention: "There was no use in nominating a straight ticket, for the chances of its success were too poor. We have been out of office for a long time, and have nothing to hope from Grant but if we elect Greeley he will have to give us something, and 'half a loaf is better than no bread.'" That is it. The talk about "reform" and "hand-clasping" is intended to inveigle the unsophisticated, but honest men have only to look at the leaders of the Greeley movement to be convinced that it is nothing but a scramble of hungry rats after the public bin.

ANOTHER GREELEY LIE. The N. Y. Post's Washington special says:—"A report started in the Greeley papers, that the Postmaster-General was increasing the compensation for railway mail services fifty per cent. and that a provision to cover such increase was smuggled into the new postal code in the Conference Committee, turns out to be utterly untrue. The provision alluded to was inserted in open House, and discussed in both branches. It applies only to cases where railroad companies furnish postal-cars and carry out the system of railroad distribution on their lines."

Eli Perkins tells this good one: When a certain New York physician was called upon to attend Gratz Brown during his *peculiar* illness, Gratz facetiously and foolishly remarked: "It is seldom, Doctor, that you are so honored as to be called to attend a Vice-President." "Oh, no, "replied the doctor, "I attended Vice-President (?) Frank Blair in '68, but your case is a good deal worse than his!"

Sad news from "Confedrit Cross Roads" (wich is in the State uv Kentucky.) Elder Pennibacker is no more. The Greeley movement killed him. So says the Rev. Nasby, who further particularizes:

"He never wuz capable uv understanding it, and at first refoozed to yield to it. He refoozed to buy any uv the white hats wich I brot back from Cincinnati, and Bascom wuz forst to take stern measures with him. 'Nary drink, Elder, till it goes under that hat!' That fetched him. He put it on.

'I'm a Dimocrat,' sed he, sadly, with a puzzled look, 'and I find, akkording to my candidate fur President, that I'm a hoss thief, a liar, a perjured villin, a slum, a harlot, and that I'm bought with British gold. I ain't a harlot, and never wuz, and ef I've bin bought with British gold, where's the gold? Good Hevins! I shel go mad!'

And the wretchid old saint, who was afflicted with a mind wich wuzn't calkelated to grasp the suttleties of modern politix, wood rush out ov his house into the field, and calm hisself by communin' with nacher."

AN ANXIOUS INQUIRER. Joseph B. Hall, a Greeley man, writes to the Portland Advertiser to the following effect: "In your last evening's paper I noticed the statement that the Liberal Republican State Committee were all appointed save in Aroostook and Hancock. I wish to ask by whom have they been appointed and by what authority? * * * If this is the people's movement, the people should have something to say about it. I had supposed that a State Convention would be called ere now, and at that Convention the people, gathered in council, would elect a State Committee. I do not know why a few men should meet in private council without notifying all who are interested and who would like to aid. I do not know why the people whose votes are expected should be excluded. If the new party is to live and win its way to success, the people, not rings and cliques, must control it."

THE LONG BRANCH SLANDER. The slander, first started we believe, by Dana in his disreputable N. Y. Sun, concerning the President's cottage at Long Branch, was recently repeated by a Democratic speaker at Ithaca, who received the following flat contradiction:

"No. 3 PINE ST., NEW YORK, July 22, 1872.

"Hon. Milo Goodrich, Dryden, N. Y.

"Sir: In a report of a speech recently made by you at Ithaca, I read that, speaking of the President of the United States, you said: 'He now revels at Long Branch in a cottage given him by Thomas Murphy.'

"Now, sir, this oft-repeated statement is wholly false. I did not give the President his house, nor contribute one cent toward its purchase; and so far as I know and believe, he purchased it and paid for it with his own money.

"Assuming you to be a gentleman, you will retract this statement as publicly as you uttered it. Respectfully yours,

THOMAS MURPHY."

In reply to the letter of a correspondent of the New York Times asking whether the current statement that A. T. Stewart had contributed $50,000 for Mr. Greeley's support was true, that paper, after remarking that it has no knowledge on that point, says: "We do know, however, that Mr. A. T. Stewart is very much disgusted because he could not get Henry Hilton appointed collector of New York. And we also know that Mr. A. T. Stewart threw all the weight of his influence last year into the scale with the Tammany thieves for the purpose of saving a few thousand dollars a year in his assessments. It would, therefore, not be at all surprising to find Mr. Stewart once more on the side of Tammany and supporting Mr Greeley."

JIMMY

When I was only sixty nine

So I ... Master Commonsense

By ... wisdom under his own white hairs

Sometimes ... happens the hoary sage—
Over anxious for Number One—
Turns to account my tender age
And I am most atrociously "done"

No matter how it may chance to be,

The copper is always wrong for me
And Jimmy is winner heads or tails

Well, I have lived to be boy and man,
Dad and grandad, and yet I vow
Never was I in my threescore an I ten
Half so sharp as Jimmy is now

And sadly the question bothers me
As I stop in my play to look at him—
What will the Twentieth Century be
If the Nineteenth youngsters are all like Jim?

WEBSTER
Pure Warm Air
FURNACE.

This new Furnace, having been THOROUGHLY TESTED, for the last five years, in New York, Massachusetts, Connecticut, New Hampshire and Vermont, and in this city the past winter, with the most flattering results, is now offered to the public of Bangor and vicinity with increased confidence in its merits

THE ADVANTAGES OF THIS FURNACE

consist in its great radiating surface, whereby a large quantity of air is heated to a moderate degree of temperature, and delivered into the rooms with its vitality unimpaired

Its Quickness of Operation.

A current of warm air issues almost immediately on starting or replenishing the fire while in most other furnaces no warm air is obtained from them until the thick iron plates or brick walls enclosing them are themselves well heated To heat a house of eight or ten rooms most furnaces consume from nine to twelve tons of coal, while the Webster Furnace to do the same work needs only from four and a half to six and a half tons

THEIR CONSTRUCTION

is such that the air is kept pure and not burned, and by means of a new patent double case, all the heated air is used to warm the house above not a particle of it is wasted in the cellar or allowed to pass off with smoke pipe

Those in want of a first class furnace are respectfully invited to call and examine the WEBSTER, and hear what reliable men of this city say who have used them
